

Day26-Design2LivePage

Here are some steps for today's exercise:

1. We'll use Figma ONLY to view the spaces between different elements (hold alt + hover on the relevant element). Use the SVG file
2. We'll use FigPea to copy the posts contents, font-size, and colors. Use the PSD file
3. FigPea can't read some of the fonts in the document, please work with the following fonts:

Blogin typography:

"Blogin" logo - Eurofurence regular

Navbar, posts header, footer ("Pixelhint.com"), "Continue reading" button, "PREVIOUS/NEXT" - Lato Bold

Posts content, footer - Lato Regular
